Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. The Examiner has carefully considered Applicants' remarks filed on 3/10/2004.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Rejections not maintained are withdrawn.

Response to Amendment

4. Claims 5-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Ash (US 5955019), substantially for the reasons set forth in section 17 of Paper No. 1003, together with the following additional observations.

Applicants' response arguing that "the Examiner has taken these teachings out of context as there is nothing in Ash to suggest that the patentee ever contemplated using both, zinc chloride and lithium bromide, a solvent" (Response, page 2, bottom paragraph) has been carefully considered, but is not persuasive. The Examiner repeats (see Paper No. 1003, page 2, bottom paragraph) that Ash describes the solvents are zinc and lithium halide solutions (Abstract). Specifically, Ash expressly teaches that "The solvents useful in the process of this invention are comprised of ZnX₂ and LiY, wherein X is selected from the group consisting of Cl, Br, and I and Y is selected from the group consisting of Br, I, and SCN." (column 1, lines 56-60), Applicants argument to the contrary notwithstanding.

Art Unit: 1771

With respect to Applicants' argument that "If patentee had intended the solvent to be a combination of ZnX_2 and LiY , he would have said the solvent "is,"" (Response, page 3, top paragraph), the Examiner respectfully notes that Applicants' argument appears to be semantic, speculative, and lacking any evidentiary support. In particular, while Ash teaches various embodiments of the solvents, no where does Ash teaches that the ZnX_2 and LiY salts must be used individually, Applicants' argument to the contrary notwithstanding.

With respect to Applicants' argument that the various advantages of using a solvent of zinc chloride and other metal salt are unexpected results (Response, pages 4-5), the Examiner notes that since these "advantages" are inherent to the embodiment of Ash's solvents having mixed salts, Applicants' argument that the advantages are unexpected results are not germane to an anticipatory rejection under section 102. See MPEP § 2131.05.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1771

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor S Chang whose telephone number is 571-272-1474. The examiner can normally be reached on 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel H Morris can be reached on 571-272-1478. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
